Pinpoint Labs now offers a new licensing option for **SafeCopy 2 Nomad** and **One Click Collect** customers that allows manually activating licenses and setting them to automatically expire. This means that **no deactivation is required!** Furthermore, you or your clients will also be able to easily purchase, and activate low cost, single use licenses at any time.

Benefits of our new online Registration Portal will include:

- ✓ 24 hours, 7 days a week Internet access
- ✓ Remotely activate and deactivate licenses
- ✓ Specify deactivation date (change later if needed)
- ✓ Eliminate the extra cost of any lost or missing licenses

There is an initial setup fee of \$395. Additionally, **all SafeCopy 2 Nomad** and **One Click Collect** licenses will need to be current on software assurance for those being managed. An additional fee of \$95 is due annually on January 2<sup>nd</sup> for ongoing maintenance and support.

Pinpoint Labs is offering this new service in response to the needs voiced by many of our customers. If you are interested in learning more or signing up, please email or call me at your earliest convenience. **Preserve. Collect. Filter.** Making your job easier is our job at Pinpoint Labs.
